Certificate of Stability

I certify that, to the best of my knowledge structural work of the above proposal has been carried out as per my structural design & details of it. The structural design of the said proposal is safe and stable as per the provisions of Indian Standards of Earthquake and other loads and for the purpose for which is intended.

I had undertaken only periodic supervision of work. As such the quality and workmanship of the construction was not within my scope.

My responsibility as structural Engineer ceases in following events.

If any alternation/ Extension is done to the structure.

If the geometric section of the RCC frame / load bearing elements are cut, grooved, removed or tampered with either by accident or by design.

If the building is overloaded.

Date: 27/05/2019
